

Notice is hereby given that the Town of Ramapo has prepared its 2026 Draft Annual Report per the NYSDEC's Municipal Separate Storm Sewer (MS4) permit requirement. The Draft Report is currently available in the Public Works Section of this website for review and comment until March 24th. Comments can be emailed to Sadowskim@ramapo.gov.

The Town's Stormwater Management Plan will be available for review and public comment at the Department of Public Works located on Pioneer Ave until March 24th by appointment only. Please contact the Department of Public Works at (845) 357-0591 should you wish to make one between the hours of 9 am and 3 pm. Thank you.

Hello Stormwater Public,

Contained within this black three ring binder is the Town's revised Stormwater Management Program Plan. This Plan supersedes the previous plan contained within the light blue binder and includes the new requirements in Permit GP-0-24-001.

Note that this plan contains the basic SWMP and some of the related appendices. It does not include everything as so many documents are constantly changing throughout the year. If there is something specific in the plan you are interested in please let us know and we can attempt to accommodate your request.

Thank you for your interest in the Program.

Michael J. Sadowski, PE

Superintendent of Public Works

Rev. March 9, 2026
